CHARITABLE TEAM BUILDING

During the organization of CSR activities going back nearly ten years, we gathered a lot of experience and contacts, and witnessed touching and memorable moments.

During the active, working day, leaving the usual environment, the participants get to know each other better, cooperation becomes natural.

The end result is always tangible and permanent. This guarantees that the program will be memorable and also helps relationships gain a new, deeper meaning.

Our most popular charitable team building activities:

- Toy factory
- Creative wall painting
- Cleaning and renovation of tourist roads
- Charity work at animal shelters
- Renovation of playgrounds, planting of flowers, installation of a rock garden
- Play sessions with children
