

## CHRISTMAS LIPDUB

**Get ready for the biggest Christmas party, where laughter and fun are guaranteed to be the main characters.**

You can enrich yourself with the experience of joint production at our exciting and entertaining Christmas program. In a few hours, the team films their joint Christmas video clip, which everyone is a part of.

After the preliminary song selection, our trainers help create the fun production, which can also be realized in the office. For this, we also provide creative accessories with a Christmas atmosphere.

Employees individually/in smaller groups are given a piece of text, which they have to display in front of the camera. We assign everyone their own part of the text in advance, which we record on video and cut together later. Below the clip is the original song.

The end result will SPEAK for itself!
