LifeTraining

CITY RALLY

A city walk with exciting adventures. For employees, we organise an exciting team challenge, combining a fun outing with creative tasks.

During the City Rally, teams are challenged to collect as many points as possible in the time available. To do this, they have to take a walking tour of Budapest, exploring the most notable and interesting sites.

There is not enough time to complete all the designated points and different tasks, so each team has to develop a strategy to choose which challenges they prefer. Some of the tasks test the team's creativity and logical skills, others their empathy or even their sense of humour. Each challenge is designed so that each team member can find the one that suits them best.

The fun and varied tasks, the excitement of the competition, provide a real shared experience for the participants, reinforcing the sense of teamwork and the importance of cooperation.

Duration: half day

Number of participants: up to 250

Csatlakozz a tréningünkhöz, és alkossatok közösen valami különlegeset.
