

FIFTH DIAMOND

Five countries, five loots, Thailand, Koh-in-Noor diamond, Star Wars. What brings them together?

Teams conduct an international investigation to solve a mystery and detect a crime that spans several countries.

Solving puzzles, finding abandoned clues, completing online tasks is how you get closer and closer to the solution. The deadline is close, only effective cooperation and appropriate division of tasks and responsibilities can lead to success.

Inside men, moving targets, locations to be found by GPS, puzzles and interactive online tasks add even more color to the program.

By the end of the program when nearly 40 pieces of information add to the big picture, only one question remains: will the secret be revealed?

Duration: half day

Participants: up to 200 people
